IFAA 2026 Financial Year Report

Expenses for the year remained steady compared to last year. An increase in subscription numbers brought income up six hundred dollars from 2025 resulting in a small profit of $237.55 for the year.

There is $12,908 in the bank, of which $2,820 is being held in trust for frame upgrades for the container going to Kalifi, Kenya for the 2028 world championships.

This leaves equity at $9,763 compared to $9,525 last year.

Membership numbers should be steady for the coming year with good numbers expected in both Victoria and South Australia.

It is likely that the insurance premiums will increase a little as they have been the same for the last two years.

I propose that membership fees remain the same for the next year as we have a strong account balance at this point in time.

At the bottom of the financials, I have provided a reconciliation of the incomings and outgoings for the Australian container that travelled to Lake Garda for the 2026 world championships.

We would love to send a full container to the Kenya Worlds so will be seeking expressions of interest at the nationals next year. Freight costs at this stage look 40% lower than Lake Garda and costs once in Kenya are low so lock in a spot in the container for the ultimate safari experience!!

Ben Schulz

Treasurer.
